1. INTRODUCTION
   a. Overall Goal: To accommodate travel that occurs with in the school District in a safe, convenient and cost-effective manner.
   b. Scope: These regulations apply to all District employees who are traveling on District business, as well as anyone who has been authorized to travel at District expense (educational consultants, school board members, advisory education members, etc.)

2. GENERAL PROTOCOL FOR REQUESTING TRAVEL
   a. Traveler submits travel to Supervisor.
      i. Travel must be submitted at least 21 days prior to out-of-state travel and 14 days for in-state travel.
   b. All travelers must use the Travel Request/Reimbursement Form (TRF)
      i. The TRF initially represents formal order for transportation services.
      ii. The TRF may be used only for official travel.
      iii. The TRF must include:
           1. Name of the traveler(s)
           2. Dates of travel
           3. Destination
           4. Account number to be charged
           5. Purpose of the travel
      iv. All copies of the TRF are submitted to the Travel Department. The traveler’s copy will be processed by the Travel Department and returned prior to travel.
   c. Supervisor submits the TRF to the Travel Manager.
   d. Travel manager creates the travel arrangements and sends an itinerary to the traveler.
   e. On the day of travel, passenger is responsible for checking iCal or the carrier for updated travel times.
   f. Any travel changes will be done through the Travel Manager. The passenger will not create or revise travel.
   g. Travel Approvals
      i. Only persons who have proper authorization may travel at District expense. Family members or companions are not authorized to accompany employees at District expense.
      ii. Each traveler, except for those individuals specifically authorized by the Superintendent or designee, must have the approval of his or her supervisor documented on the TRF prior to departure.
      iii. Approval of travel authorization forms may not be delegated to a level of authority lower than the traveler.
      iv. The Superintendent must approve all out-of-state travel.
1. Delegation: Approvals defined in this section may be delegated only for purposes of absence or non-availability of the authorized individuals.

3. DISTRICT PLANE EXPECTATION
   a. Seat fare and charter rates are maintained on a sheet available from the Travel Clerk.
   b. Be ready and at the airport 30 minutes before the flight departs. You do not want to be responsible for delays that will impact all passengers after you.
   c. Baggage and Freight:
      i. Baggage weight limit is 40 pounds per person. Excess baggage must be noted on travel request.
      ii. All baggage and freight will be weighed and tagged or labeled before taken to the airplane.
      iii. All freight traveling on the district plane must be approved by BSSD Aircraft Mechanic.
   d. Web-based calendar (iCal) will be maintained within 20 minutes of the plane’s actual schedule. After itineraries are issued, they will not be reissued for schedule and time changes. All changes will be reflected on iCal. It is strongly recommended that the principal and traveler check the schedule at the beginning of the day and throughout the day to assure the schedule has not changed.
   e. Communication:
      i. For primary communication with the District Plane, each site has been issued a marine radio for the purpose of keeping in touch with the District plane. It is to be on channel 5; squelch and volume will be checked at the beginning of each day. Typically the District plane will call in 20 minutes before arrival.
      ii. For secondary communications, the principal has a radio in the residence.
      iii. Lastly, the pilot has a satellite phone he can use to communicate with the site. The principal will provide a list of cell phone numbers. It is critical that the pilot spends the minimum amount of effort to contact site for notifying his arrival time.
      iv. It is the principal’s responsibility to:
         1. Assure smooth communication with the pilot.
         2. Contact the Travel Clerk if the plane is over 20 minutes late. If the Travel Clerk is not available, contact the BSSD Airplane Mechanic and then the Superintendent.
   f. Non-employee travel is subject to approval from the Superintendent. BSSD operates under FAA Part 91 as a private carrier. As such, the District will never compete with commercial carriers who operate under FAA Part 135.
g. No passengers or freight will travel for “free.”

4. WEATHER EXPECTATIONS
   a. The purpose of this policy is to avoid unnecessary risk to life and safety of employees during District-approved winter travel by aircraft.
   b. Be considerate of weather conditions when taking people to the airport. (Ex: Dropping passengers off 30 minutes early when the weather is -30°F is not necessarily a good idea.)
   c. Students will not be allowed on piston aircrafts if the temperature at the departure or destination site is below -35°F. Students will not be allowed on turbine aircrafts (i.e. BSSD N406SD) when the temperature at the departure or destination site is below -40°F. These limits are board policy and are non-negotiable. (BP 3543)
   d. The principal may choose to cancel travel for his/her students or staff if conditions appear unsafe. However, such a decision should be made prior to an aircraft taking off to pick up those passengers. Once an aircraft takes lands for the pick up, the site will be charged for the trip.
   e. If airlines cancel due to weather, the District plane will cancel unless weather changes.
   f. Employee travel at temperatures colder than the aforementioned limitations (-40°F) will be at the sole discretion of both the employee and airlines.
   g. Employee travel on jet aircraft is not covered by this policy.
   h. The temperature at either the place of departure or the place of arrival will be based upon a National Weather Service reading or a temperature reading from an approved source. Approved sources shall be airline village agent(s) or an Automatic Weather Station (AWOS).

5. SAFETY AND ACCIDENT REPORTING
   a. If a vehicle accident occurs, the traveler shall:
      i. Secure the names and addresses of all persons involved in the accident and all witnesses and owners of damaged property and the make, model, registration number and insurers of all vehicles.
      ii. Notify the state troopers or local police immediately.
      iii. Make no statement to anyone, except the proper authorities, as to who may have been at fault nor any statement which may even remotely be interpreted as an apology or as an acknowledgement of any responsibility for the accident (to do so may adversely affect the ability to right-fully defend the District or the individual making such statements in subsequent legal proceedings).
      iv. Report the accident to the immediate supervisor and Business Office. The District may request documentation detailing the accident.
6. ADMINISTRATIVE PROCEDURES FOR TRAVEL EXPENSES AND ALLOWANCES

7. When possible, the sharing of rental vehicles is encouraged.
